# INFIRMARY SALE PLANS OUTLINED

Alger Supervisors Will Dispose Of County Property

Munising, Sept. 12—The Alger county board of supervisors at their regular monthly meeting held Tuesday, made final the plans for the disposal of the Alger county infirmary real estate and personal property. All motions in regard to the infirmary question were carried unanimously.

First—The county clerk was authorized to advertise for bids for the sale of the real estate of the infirmary and that all bids must be submitted to the clerk before 12 o'clock noon on October

Second—The infirmary committee was authorized to employ the necessary auctioneers to dispose of the personal property (bedding, kitchenware, furniture, farming stock and equipment) of the county infirmary.

Third—Chairman of board of supervisors James Knox was authorized to sell the infirmary pick-up and John Deere tractor plow for ceiling price.

Fourth-The sum of \$683.00 was ordered transferred from the gen- Newberry of expenditures it was found that Connors road. it would be much more economi transfer what few patients there Missionary Will cal to close the infirmary and were (12) to the social welfare board as most of the patients were eligible for old age pension. from the Navy Department confirming his death

"It is with regret that this bureau confirms the death of your son, William Raymond McCarthy, S 1/9 USNR." The following letter wa enclosed with the above message,

written to Mrs. McCarthy McCarthy on June 1 by the commanding officer of the destroyer

"My Dear Mrs. McCarthy: It is with the deepest regret that I have to inform you that your son, William, is missing in action from this command as of May 4, 1945. William was lost overboard when his ship was struck by an enemy suicide plane in the vicinity of his battle station. The circumstances are such that in all probability William was instantly killed when the suicide plane struck the ship I want you to know that a most thorough search was conducted of the entire area and the search was abandoned only when we were certain that there was no hope of finding anyone.

William was a good shipmate and is truly missed by his many ntimate friends. On behalf of hi shipmates, the officers and men o

"Our Vines Have Tender Grapes," on Institute sponsored by the Nould anyone having such a re-niversity of Michigan, and the cipe please mail it to the woman's of the same name by George Vic-University of Michigan, and the cipe please mail it to the woman's of the same name by George Victor Martin, Chicago writer, who spends his summers at Nahma, is receiving highly favorable reviews on its initial showings in metropolitan theaters.

The movie, recently released and now showing at the Radio City Music Hall in New York City, was reviewed in the Wall Street Journal as follows:

Every now and then Hollywood turns out a film which extols the solid virtues of unpresentious people. Usually they are cloyingly sentimental, but "Our Vines Have Tender Grapes" presents this theme with dignity and charm. Some scenes do become oversugary, but on the whole this pitfall is avoided.

Margaret O'Brien does a splendid bit of acting as Margaret, the little daughter of Martinius Jacobson, a Norwegian farmer, played by Edward G. Robinson. Her performance is touching and natural,

# PFC. JOHNSON **DIED IN ACTION**

Stonington Soldier Previously Reported Missing

Pfc. Edwin L. Johnson, of Stonington, who was reported missing in action in Germany on January 1, 1945, was killed in action on that date, his wife, the former Marion Peterson, has been informed by the chaplain of the 378th Infantry, to which Pfc. Johnson was attached.

The letter from Chaplain William G. Vincent follows:

"Please accept our sincere symathy in your sorrow, caused by the death of your husband, Pfc Edwin L. Johnson, who was killed in action on the first of January 1945, in Shaffhausen, Germany He was originally reported missing in action but a careful investigation has proved that he was killed in action.

"His company had just entered the village of Shaffhausen, which is located near the Saar river in the heart of the Siegfried Line. As he was advancing through the street, he was hit by enemy machine gun fire. He died immediately before aid could reach him.

"Your husband was an excellent soldier. In combat he proved himself to be courageous. Those of us who knew him feel very humble when we think of the great sacrifice that he has made. You may be sure that the officers and men of the organization join me in extending to you our deepest symwas held in his honor.

"During these days of sorrow, we can find comfort in Him who bled. In my Father's house there are many mansions. I go to prepare a place for you.'

"Please accept our deepest sym- season. pathy and know that we sorrow

# ARTIFICIAL LEGS, ARMS IMPROVING

### Crippled Vets And Others Will Get Better Service

Washington, SS .- Better artificial arms and legs for veterans a thirty day furlough on the and civilians can be expected as a result of research now under way in the services and under the direction of a committee of the National Research Council. This much became clear as a Congressional committee on aid to the physically handicapped, under the chairmanship of Rep. Augustine B. Kelley of Pennsylvania, opened

Veterans or their friends who expect the perfect or ideal in the way of an artificial hand, leg, arm or foot, however, will probably be disappointed.

hearings here today.

Even the best conceivable artificial arm or leg can be but in inadequate substitute for the member it replaces," Dr. Paul E. Klopsteg of Northwestern Uniersity, chairman of the National Research Council's committee on prosthetic devices, has already pointed out.

Even after full recovery from an amputation, the muscles are shrunken and have much less power and force than those of the original arm or leg, Dr. Klopsteg explained. His committee is studyng devices for supplying external power, including mechanical, electrical, hydraulic and pneu-

Army research on the problem of artificial limbs is going forard at its amputation centers. In nese, the program coordinates the work of the surgeons and physiotherapists who prepare the stumps, the work of men who fit the devices, of those who train mputees to use the devices, and e development and standardizaon of the artificial arms and legs

The Army has about 14,000 amputation casualties. These include cases ranging from s of all fingers of one hand or alf of one foot to the loss of both ms above the elbow. This last one of the most serious of all ortunately it is a rare occurence. Only four Army veterans have

Standardization of parts is one the projects the Army has been orking on, in cooperation with he National Bureau of Standards ad artificial limb manufacturers. This has already been accomplished for the foot and ankle and by oct. 1 it is hoped standards for ees will be completed.

Setting standards for the best possible knee, ankle or other part was somewhat handicapped in Sr Army centers by the fact that, This made scientific comparisons lifficult. Making changes was also difficult, with as many as 1,600 emputees in Army hospitals at one me. One hospital had 400 ampuation patients in one month.

### COCONUT WARFARE

American Marines won a battle in the Solomons by throwing coconuts. Cornered Japs threw back grenades as fast as the Yanks could toss them. By throwing coconuts with the grenades they confused the Nips, giving the explosives time to do their work.

Jesuit priests at Lima, Peru, chona bark about 1630.

# **NEW BUILDINGS** AT PAPER MILL

Improvement Program Is Under Way At Local Industry

The foundation for a new office building, 60 by 65 feet, has been erected at the Escanaba Paper company and construction of the main portion of the building will proceed as soon as steel work is

Erling Arntzen, Escanaba contractor, has the contract for the construction of the building, which is expected to be completed shortly after the first of the year. The building will be two stories, and will include lockers, showers and a lunch room in the basement.

Plans also have been made for the construction of a new extension to the finishing room at the paper mill, approximately 125 feet in length. In addition to providi additional space required for the finishing department, the building also will provide space for storage of paper. At present the company is utilizing storage space building. Stephenson avenue.

The present office quarters at the paper company will be razed to make room for the new finishing room extension, after the new foundation for the finishing room extension probably will be poured this fall, with actual construction - be delayed until spring.

The improvement program at the paper mill also includes the construction of a brick structure to replace an old building housing a portion of the pulp mill.

This work is now in progress. Construction also has been virtually completed on another new building into which will be installed equipment designed to save wood fibers that normally are lost in the paper manufactur-
